Statement from Hastings HNA at the Planning Commission Meeting on March 3, 2026:

My name is Linda Santoline, and I am a resident in the Hastings Community. The Hastings Neighborhood Association established a Hastings Futures Committee last year and just last month formed a Transition Team to look into progress made in the completion of our neighborhood, and to document areas of concern and identify potential deficiencies. We became aware of this meeting and plans for Phase 5 and decided it is important for us to be here, to hear about the plan and offer our brief perspective. I am speaking here – on behalf of the HNA Board, the transition team, our neighbors -- to STRESS that as you consider approving Charter's Phase 5 plan -- that so far, the homeowners have concerns about the completion, and where necessary, remediation of issues required in Phases 2-4, and even Phase 1, even though it was already turned over to the township.

We really like living in Hastings and believe that Charter generally strives to do a good job. The Hastings Neighborhood Association is active and we are working to understand the township's construction standards, the approved plans and records for our community while focusing on working with Charter and the township as Phase 4 construction winds down. We are also trying to understand how the bonds required by the township are satisfied since our neighborhood was constructed in these multiple phases.

Let me remind that according to the published plans, Hastings Phases 1-4 include 12 public roads, six of the twelve have been turned over to the township either in whole or in part. Phases 1-4 include 28 PRIVATE roads and alleys, and Phase 5 proposes two additional private roads! We are genuinely concerned about being responsible for so many private roads and alleys, over 70% of the roads in Hastings. The condition of these PRIVATE roads when they are turned over matters very much to the homeowners and our HNA. The HNA strongly believes that Braebank Street in Phase 5 should be a public road, consistent with SF construction standards, and also because it is the

only access point for municipal and public safety vehicles and intersects with Mayview Road.

So, I am going to offer some examples of our concerns; not to be considered inclusive!

As you are now aware, we are concerned about the timeline for final paving of our public and private streets and alleys – Phase 2 has had unfinished roads for over 5 years now.

We have previously informed the township that we need additional street and traffic signs-- as required by the standards and in the interest of public safety. In particular, Charter and SF Township agreed that certain streets were to have a 15 mph speed limit, yet none are posted. This includes Hastings Crescent in front of the stores where residents are very concerned about speeding. The island that exists just below Crossroads causes constant confusion for drivers and walkers and is a safety issue. We have concerns about the condition of trails and sidewalks, and the condition of existing or missing ADA compliant sidewalks and crosswalks.

The livelihood of trees throughout Hastings – a design feature of the neighborhood, is an ongoing cost and concern. Charter received a number of modifications based on their stated plan to preserve mature sycamore trees. Unfortunately, they damaged those trees during construction, forcing us to remove seven. We are afraid more will need to come down in the future. We are asking for reimbursement for the costs of removal and replacement.

There is no street light at the intersection of Mayview Road with Hastings Crescent or Hastings Park Drive and the proposed Phase 5 will include another intersection with Mayview Road that will certainly need lighting.

We are in the process of documenting these and other issues and will provide details to the Township and Charter in the coming months.

We are respectfully asking that Charter and South Fayette work with Hastings residents on these issues, and develop a plan and timely schedule to address the issues identified. The completion of items for the first four phases should not be delayed due to the addition of Phase 5 if passed, and instead addressed concurrently with the completion of Phase 4.

Thank you for your attention.
